Wow that is a BIG block of text!

Here I'm just pasting in some gibberish text as an example; well actually it's some Latin text but it might as well be gibberish for me.

Intro Text

Remember this is the "Intro Text" box you are adding text to here.

If you put too much text in, it will not fit in with the other "intros" on the Design Directory pages.

Let's cut some out and put it in the "Main Text" box.

Paragraph

quidam noxii damnabantur, quorum pars necati, alii puniti bonorum multatione actique laniis suis extorres nullo sibi relicto praeter querelas et lacrimas, stipe conlaticia victitabant, et civili iustoque imperio ad voluntatem converso cruentam, clauderantur opulentae domus et clarae. 5. nec vox accusatoris ulla licet subditiis in his malorum quaerebatur acervis ut saltem specie tenus crimina praescriptis legum committerentur, quod aliquotiens fecere principes saevi: sed quicquid Caesaris implacabilitati sedisset, id velut fas iusque perpensum confestim urgebatur impleri. 6. excogitatum est super his, ut homines quidam ignoti, vilitate ipsa parum cavendi ad colligendos rumores per Antiochiae latera puncta destinarentur relaturi quae audirent, hi peragranter et dissimulanter honoratorum circulis adsistendo pervadendoque divites domus agentium habitu quicquid noscere poterant vel audire latenter intromissi per posticas in regiam nuntiabant, id observantes conspiratione concordi, ut fingerent quaedam et cognita duplicarent in pelus, laudes vero suppresserent Caesaris, quas invitis compluribus formido malorum independentium exprimebat. 7. et interdum acciderat, ut siquid in penetrati secreto nullo ceterioris vitae ministro praesente paterfamilias uxori susurrasset in aurem, velut Amphiarao referente aut Marcio, quondam vatibus incitis, postidie disceret imperator, ideoque etiam parietes arcanorum soli consilii timebantur. 8. adolesebat autem obstinatum propositum erga haec, et similia multa scrutanda, stimulos admovente regina, quae abrupte mariti fortunas trudebat in exitium praeeptis, cum eum potius lenitate feminea ad veritatis humanitatisque viam reducere utilia suadendo deberet, ut in Gordianorum actibus factitasse Maximini truculenti filius imperatoris rettulimus coniugem. 9. Novo denique pernicioso exemplo idem Gallus ausus est inire flagitium grave, quod Romae cum ultimo dedecore temptasse aliquando dicitur Gallienus, et adhibitis paucis clam ferro succinctis vesperi per tabernas palabatur et conpita quaeritando Graeco sermone, cuius erat impendio gnarus, quid de Caesare quisque sentiret, et haec confidenter agebat in urbe ubi pernociantium luminum claritudo dierum solet imitari fulgorem, postremo agnitus saepe iamque, si prodisset, conspicuum se fore contemplans, non nisi luce palam egrediens ad agenda quae putabat seria cernebatur, et haec quidem medullitus multis gementibus agebantur. 10. Thalassius vero ea tempestate praefectus praetorio praesens ipse quoque adrogantis ingenii, considerans incitationem eius ad multorum augeri discrimina, non maturitate vel consiliis mitigabat, ut aliquotiens celsae potestates lras principum molliverunt, sed adversando iurgandoque cum parum congrueret, eum ad rabiem potius evibrabat, Augustum actus eius exaggerando creberime docens, idque, incertum qua mente, ne lateret adfectans, quibus mox Caesar acius efferatus, velut contumaciae quoddam vexillum altius erigens, sine respectu salutis alienae vel suae ad vertenda opposita instar rapidi fluminis inevocabili impetu ferebatur.

Novo denique pernicioso exemplo idem Gallus ausus est inire flagitium grave, quod Romae cum ultimo dedecore temptasse aliquando dicitur Gallienus, et adhibitis paucis clam ferro succinctis vesperi per tabernas palabatur et conpita quaeritando Graeco sermone, cuius erat inpendio gnarus, quid de Caesare quisque sentiret, et haec confidenter agebat in urbe ubi pernottantium luminum claritudo dierum solet imitari fulgorem, postremo agnitus saepe iamque, si prodisset, conspicuum se fore contemplans, non nisi luce palam egrediens ad agenda quae putabat seria cernebatur, et haec quidem medullitus multis gementibus agebantur. 10. Thalassius vero ea tempestate praefectus praetorio praesens ipse quoque adrogantis ingenii, considerans incitationem eius ad multorum augeri discrimina, non maturitate vel consiliis mitigabat, ut aliquotiens celsae potestates lras principum molliverunt, sed adversando iurgandoque cum parum congrueret, eum ad rabiem potius evibrabat, Augustum actus eius exaggerando creberime docens, idque, incertum qua mente, ne lateret adfectans, quibus mox Caesar acius efferatus, velut contumaciae quoddam vexillum altius erigens, sine respectu salutis alienae vel suae ad vertenda opposita instar rapidi fluminis inevocabili impetu ferebatur.

indulta per suspicionum nebulas aestimati quidam noxii damnabantur, quorum pars necati, alii puniti bonorum multatione actique laniis suis extorres nullo sibi relicto praeter querelas et lacrimas, stipe conlaticia victitabant, et civili iustoque Imperio ad voluntatem converso cruentam, claudabantur opulentae domus et clarae. 5. nec vox accusatoris ulla licet subditi in his malorum quaerebatur acervis ut saltem specie tenus crimina praescriptis legum committerentur, quod aliquotiens fecere principes saevi; sed quicquid Caesaris implacabilitati sedisset, id velut fas iusque perpensum confestim urgebatur impleri. 6. excogitatum est super his, ut homines quidam ignoti, vilitate ipsa parum cavendi ad colligendos rumores per Antiochiae latera cuncta destinarentur relaturi quae audirent. hi peragranter et dissimulanter honoratorum circulis adsistendo pervadendoque divites domus egentium habitu quicquid noscere poterant vel audire latenter intromissi per posticas in regiam nuntiabant, id observantes conspiratione concordi, ut fingerent quaedam et cognita duplicarent in peius, laudes vero suppresserent Caesaris, quas invitis compluribus formido malorum independentium exprimebat. 7. et interdum acciderat, ut siquid in penetroli secreto nullo ceterioris vitae ministro praesente paterfamilias uxori susurrasset in aurem, velut Amphiarao referente aut Marcio, quondam vatibus inclitis, postridie disceret imperator, ideoque etiam parietes arcanorum soli consilii timebantur. 8. adolecebat autem obstinatum propositum erga haec et similia multa scrutanda, stimulos admovente regina, quae abrupte mariti fortunas trudebat in exitium praecoeps, cum eum potius lenitate feminea ad veritatis humanitatisque viam reducere utilia suadendo deberet, ut in Gordianorum actibus factitasse Maximini truculenti illius imperatoris rettulimus coniugem. 9. Novo denique perniciosoque exemplo idem Gallus ausus est inire flagitium grave, quod Romae cum ultimo dedecore temptasse aliquando dicitur Gallienus, et adhibitis paucis clam ferro succinctis vesperi per tabernas palabatur et conpita quaeritando Graeco sermone, cuius erat impendio gnarus, quid de Caesare quisque sentiret, et haec confidenter agebat in urbe ubi nocturnorum luminum claritudo dierum solet imitari fulgorem, postremo agnitus saepe iamque, si prodisset, conspicuum se fore contemplanis, non nisi luce palam egrediens ad agenda quae putabat seria cernebatur, et haec quidem medullitus multis gementibus agebantur. 10. Thalassius vero ea tempestate praefectus praetorio praesens ipse quoque adrogantis ingenii, considerans incitationem eius ad multorum augeri discrimina, non maturitate vel consiliis mitigabat, ut aliquotiens celsae potestates iras principum molliverunt, sed adversando iurgandoque cum parum congrueret, eum ad rabiem potius evibrabat, Augustum actus eius exaggerando preberime docens, idque, incertum qua mente, ne lateret adfectans, quibus mox Caesar acrius efferatus, velut contumaciae quoddam vexillum altius erigens, sine respectu salutis alienae vel suae ad verenda opposita instar rapidi fluminis irrevocabili impetu ferebatur.
